

# BINGO DELUXE

## A GUIDE FOR OPERATORS - NEW SOUTH WALES

### How It Works

Bingo Deluxe is a trade promotion run over the top of an in-house bingo game. The promotion is a linked jackpot game. After you have linked to the central server and confirmed your ticket range, Deluxe symbols will be allocated to numbers on the bingo board. Call bingo as normal until a player claims a valid Full House (all 15 numbers marked). This player wins your in-house bingo prize.

The full house winner has another chance to win a Deluxe prize by achieving the following:

6 x **Diamond** Symbols on the full house card wins the **Grand Jackpot**

Grand Jackpot is progressive. The jackpot starts at \$1,000 then increments after every game played up to a maximum \$50,000 prize.

6 x **Ruby** Symbols on the full house card wins the **Mega Jackpot**

Mega Jackpot is progressive. The jackpot starts at \$500 then increments after every game played up to a maximum \$10,000 prize.

6 x **Gold Nugget** Symbols on the full house card wins the **Mini Jackpot**

Mini jackpot of \$100 is available on every linked game.

1 x **Purple Bingo Ball** on Last Number Called and on the full house card launches the second screen **feature** game. Collect all of the letters from BINGO in one colour to win the corresponding prize.

**BINGO on Sapphire wins \$30**

**BINGO on Gold wins \$40**

**BINGO on Emerald wins \$50**

**BINGO on Ruby wins \$100**

**Note:** Not every second screen feature game is a guaranteed winner. Some games will not collect all of the letters from BINGO.

Continue playing each game in your book. The symbols will shuffle on the board for each game you play. The full house winner from each game in the book will have a chance to win the prizes described above.

### Requirements and Costs

To participate in Bingo Deluxe you will need:

- An MFP Powercall bingo calling system available for purchase from BSG Australia Pty Ltd
